Independent Auditors' Report

To the Board of Trustees
American Schools of Oriental Research
Boston, Massachusetts

We have audited the accompanying financial statements of American Schools of Oriental Research (a nonprofit organization), which comprise the statements of financial position as of June 30, 2013 and 2012, and the related statements of activities and cash flows for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of American Schools of Oriental Research as of June 30, 2013 and 2012, and the changes in its net assets and its cash flows for the years then ended in accordance with accounting principles generally accepted in the United States of America.

Notes to Financial Statements

American Schools of Oriental Research

Years Ended June 30, 2013 and 2012

NOTE A -- THE ORGANIZATION AND SIGNIFICANT ACCOUNTING POLICIES

The Organization: American Schools of Oriental Research (ASOR), established in 1900, was incorporated as a not-for-profit public charity in 1935. ASOR promotes study, teaching and dissemination of knowledge of the ancient and modern languages and literature, geography, history, and archeology of the Near and Middle Eastern countries. The principal sources of revenue are from scholarly journals and books, annual programs, membership dues, grants and contributions.

Basis of Accounting: ASOR prepares its financial statements in accordance with U.S. generally accepted accounting principles. This basis of accounting involves the application of accrual accounting; consequently, revenues and gains are recognized when earned, and expenses and losses are recognized when incurred.

Basis of Presentation: ASOR follows FASB ASC 958-205, 210, 225, issued by the Financial Accounting Standards Board (FASB) for presentation of its financial statements. ASOR reports information regarding its financial position and activities according to the following three net asset classes:

Unrestricted Net Assets: Unrestricted net assets represent those assets either not subject to donor-imposed restrictions or releases from temporarily restricted net assets designated for stipulated activities or programs, which are expended within the current fiscal year. Board-designated or appropriated amounts are legally unrestricted and are reported as part of the unrestricted class.

Temporarily Restricted Net Assets: Temporarily restricted net assets are subject to explicit or implicit donor-imposed restrictions that may or will be met by actions of ASOR and/or the passage of time. When a restriction expires (that is, when a stipulated time restriction ends or a purpose restriction is accomplished), restricted net assets are reclassified to unrestricted net assets and reported in the statement of activities as net assets released from restrictions.

Permanently Restricted Net Assets: Permanently restricted net assets are subject to donor-imposed stipulations that they be maintained permanently by ASOR. Generally, the donors of these assets permit ASOR to use all or part of the income earned on related investments for general or restricted purposes.

Revenue Recognition: Revenue is derived mainly from memberships, subscriptions, and publication sales. Revenues from memberships and subscriptions are recognized ratably over the related period (normally one year). Any unearned amount is presented as deferred revenue in the statement of financial position. Publication sales are recognized at the time of sale.

Contributions and Grant Awards: ASOR follows FASB ASC 958-605. Contributions and grant awards are recorded as unrestricted, temporarily restricted, or permanently restricted support depending on the existence and/or nature of any donor restrictions. Contributions, including unconditional promises to give, are recognized by ASOR in the period received. All contributions are available for unrestricted use unless specifically restricted by the donor. Unconditional promises to give, due in the next year, are recorded at their net realizable value. Unconditional promises to give due in subsequent years are reported at the present value of their net realizable value, using an appropriate discount rate. Conditional promises to give are recognized when the conditions on which they depend are substantially met.

Cash Equivalents: ASOR considers all highly liquid investments with an initial maturity of three months or less, including bank money market accounts, to be cash equivalents.

NOTE A -- THE ORGANIZATION AND SIGNIFICANT ACCOUNTING POLICIES -- Continued

Investments: Investments are held by two brokerage firms in various mutual/investment funds and other equities and fixed-income securities. Investments are reported at fair value based on quoted market prices. Realized and unrealized gains and losses are included in the changes in net assets. Investment income and gains restricted by a donor are reported as increases in unrestricted net assets if the restrictions are met (either by passage of time or by use) in the reporting period in which the income and gains are recognized. Refer also to *Note B -- Investments*.

Accounts Receivable: Accounts receivable are stated at the amount management expects to collect from outstanding balances. Management provides for probable uncollectible amounts through a charge to earnings and a credit to a valuation allowance based on its assessment of the current status of individual accounts. Balances that are still outstanding after management has made reasonable collection efforts are written off through a charge to the valuation allowance and a credit to accounts receivable. Management considers all receivables to be collectible; therefore, no allowance for doubtful accounts is provided at June 30, 2013 and 2012. Accounts receivable balances are due within a year and are unsecured.

Inventory and Capitalized Costs: Inventory consists of completed publications that are sold through an independent distributor. Capitalized costs consist of expenses related to the production of publications prior to completion. Inventories are stated at the lower of cost, determined by total production costs capitalized, or market value.

Fixed Assets: Fixed assets are carried at cost or if donated, at fair value at the date of donation, less accumulated depreciation. Depreciation is calculated on a straight-line method over the estimated useful lives of the respective assets. Purchases are determined to be capital expenditures based on ASOR's policy of capitalizing assets acquired at a cost (or, if donated, a fair value) exceeding \$500. Those items that are not a capital expenditure are immediately expensed.

Donated Services: Donated services are recognized as contributions in accordance with FASB ASC 958-605, if the services (a) create or enhance nonfinancial assets or (b) require specialized skills, are performed by people with those skills, and would otherwise be purchased by ASOR. Volunteers provided services that are not recognized as contributions in the accompanying financial statements since the recognition criteria under FASB ASC 958-605 were not met.

Fair Value of Financial Instruments: The carrying value of cash equivalents, accounts receivable, and accrued expenses is considered by management to approximate the fair value of such at June 30, 2013 and 2012, based on the short-term maturity of these financial instruments. Investments are carried at fair value based on quoted market prices. Refer also to *Note H -- Fair Value Measurements*.

Income Taxes: ASOR is exempt from federal income taxes under Section 501(c)(3) of the Internal Revenue Code. ASOR had no unrelated business activities and, therefore, incurred no unrelated business income taxes for the years ended June 30, 2013 and 2012. Tax filings for fiscal years ending after June 30, 2009, remain open and subject to examination.

Functional Allocation of Expenses: The costs of providing the various programs and activities have been summarized on a functional basis in the statements of activities. Accordingly, certain costs have been allocated among the programs and supporting services benefited.

Use of Estimates: The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amount of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of support, revenues and expenses during the reporting period. Actual results could differ from those estimates.

American Schools of Oriental Research

NOTE F -- ENDOWMENT NET ASSETS

In June 2009, the Commonwealth of Massachusetts enacted a version of UPMIFA (Uniform Prudent Management Institutional Funds Act) applicable to endowment funds existing on or established after the Act's effective date. UPMIFA eliminates the historic dollar concept of UMIFA (the governing law in Massachusetts prior to June 2009) in favor of the "prudent spending" concept as pertains to endowment net assets. ASOR maintains that the historic dollar value of contributions to its endowment funds approximates the permanently restricted portion of such when applying the "prudent spending" concept.

As a result of this interpretation, the Organization classifies as permanently restricted net assets (1) the original value of gifts donated to endowments, (2) the original value of subsequent gifts to endowments, and (3) accumulations to endowments made in accordance with the direction of the applicable donor gift instruments. The remaining portions of donor-restricted endowment funds that are not classified as permanently restricted net assets are classified as temporarily restricted net assets until those amounts are appropriated for expenditure by the Organization in a manner consistent with the standard of prudence prescribed by UPMIFA.

ASOR has adopted investment and spending policies for endowment assets that attempt to provide a predictable stream of funding to programs supported by its endowments while seeking to maintain the purchasing power of those endowment assets over the long-term. ASOR's investment portfolio relies on diversification of assets to achieve its long-term return objectives within prudent risk parameters. Earnings on endowment funds are available for ASOR's general use or as otherwise restricted by the donor.

The composition of endowment net assets by fund type is as follows at June 30, 2013:

	<u>Unrestricted</u>	<u>Temporarily Restricted</u>	<u>Permanently Restricted</u>	<u>Total</u>
Donor-restricted endowment funds	\$ (1,909)	\$ 418,813	\$ 671,877	\$ 1,088,781

NOTE G -- FACILITIES LEASE

On July 1, 1996, ASOR entered into an agreement to lease office space from the Trustees of Boston University. No rent is payable under this lease. ASOR is required to make monthly payments to cover operating costs incurred by the landlord. The lease expired on June 30, 2012, and has not been formally extended. ASOR has received no notice of Boston University's intent to terminate its tenancy arrangement with ASOR. Management expects to be given at least twelve months notice, as was agreed upon in the aforementioned lease, should the University decide to repurpose the space. The value of the use of the leased property has been recorded as an in-kind contribution and an in-kind expense of \$33,660 for the years ended June 30, 2013 and 2012.

NOTE H -- FAIR VALUE MEASUREMENTS

ASOR applies U.S. generally accepted accounting principles (GAAP) for fair value measurements of financial assets that are recognized or disclosed at fair value in the financial statements on a recurring basis. GAAP defines fair value as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. GAAP also establishes a framework for measuring fair value and expands disclosures about fair value measurements.

FASB ASC 820-10 establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels: Level 1 inputs consist of unadjusted quoted prices in active markets for identical assets and have the highest priority, Level 2 inputs consist of observable inputs other than quoted prices for identical assets, and Level 3 inputs have the lowest priority.

The following represents assets measured at fair value on a recurring basis by ASOR at June 30, 2013 and 2012:

	<u>Fair Value</u>	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
<u>June 30, 2013</u>				
Cash equivalents	\$ 515,833	\$ 515,833	\$ 0	\$ 0
Investments	<u>1,086,594</u>	<u>1,086,594</u>	<u>0</u>	<u>0</u>
Total	<u>\$ 1,602,427</u>	<u>\$ 1,602,427</u>	<u>\$ 0</u>	<u>\$ 0</u>
<u>June 30, 2012</u>				
Cash equivalents	\$ 457,265	\$ 457,265	\$ 0	\$ 0
Investments	<u>869,520</u>	<u>869,520</u>	<u>0</u>	<u>0</u>
Total	<u>\$ 1,326,785</u>	<u>\$ 1,326,785</u>	<u>\$ 0</u>	<u>\$ 0</u>

Level 1: Cash equivalents are held in bank money market accounts. Investments are held in various mutual/investment funds, and other equities and fixed-income securities as described further in *Note B -- Investments*.

At June 30, 2013 and 2012, ASOR had no assets or liabilities classified within Level 2 or Level 3 of the fair value hierarchy.

NOTE I -- SIGNIFICANT CONCENTRATIONS

At June 30, 2013, ASOR held cash and investments having a fair value of approximately \$886,000 with one brokerage firm. These, as well as other investments, are primarily unsecured, though certain coverage may be provided by the Security Investors Protection Corporation for missing stocks and other securities up to \$500,000, including up to \$100,000 in cash if a brokerage or bank brokerage subsidiary fails. SIPC does not insure the quality of investments or protect against losses from fluctuating market values.

ASOR's bank deposits at June 30, 2013 exceeded FDIC limits (\$250,000 per account holder, per bank) by approximately \$331,000.

NOTE J -- COMMITMENTS AND CONTINGENCIES

Grants, bequests and endowments require the fulfillment of certain conditions set forth in the instruments of the gifts. Failure to fulfill the conditions, or in the case of the endowments, failure to continue to fulfill them, could result in the return of funds to the grantor. The Board and management believe the contingency is remote, since by accepting the gifts and their terms, it has accommodated the objectives of ASOR to the provisions of the gifts.

NOTE K -- RELATED PARTY TRANSACTIONS

The financial statements include only the accounts of American Schools of Oriental Research (ASOR). These financial statements do not include ASOR's affiliates: the William Foxwell Albright Institute of Archeological Research (AIAR) in Jerusalem; the American Center of Oriental Research in Amman, Incorporated (ACOR) in Amman, Jordan; and the Cyprus American Archaeological Research Institute, Inc. (CAARI) in Nicosia, Cyprus.

ASOR shares office space with the aforementioned named affiliates and pays for common expenses, which are later reimbursed by the affiliates.

Members of the Board of Trustees contributed approximately \$160,000 and \$124,000 to ASOR for the years ended June 30, 2013 and 2012, respectively.

During the years ended June 30, 2013 and 2012, ASOR paid \$11,198 and \$10,629, respectively, for printing services provided by a Board member. ASOR also paid project stipends totaling \$500 to a Board member for the years ended June 30, 2013 and 2012.

In-kind contributions for 2013 include \$58,714 of advertising from Google Inc. and \$33,660 of donated office space. In-kind contributions for 2012 included \$11,233 of pro bono attorney time and \$33,660 of donated office space. Refer also to *Note G -- Facilities Lease*.

NOTE L -- SUBSEQUENT EVENTS

Management has evaluated subsequent events through November 12, 2013, the date on which financial statements were available for issue.

Independent Auditors' Report
on Supplementary Information

To the Board of Trustees
American Schools of Oriental Research
Boston, Massachusetts

We have audited the financial statements of American Schools of Oriental Research as of and for the years ended June 30, 2013 and 2012, and have issued our report thereon dated November 12, 2013, which contained an unmodified opinion on those financial statements. Our audits were performed for the purpose of forming an opinion on the financial statements as a whole. The schedules of support and revenue and functional expenses are presented for the purposes of additional analysis and are not a required part of the financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole.
