15 SAINT MARY'S ST. ROOM 105

SIGURD WAGNER

PROFESSOR EMERITUS & SENIOR SCHOLAR
PRINCETON UNIVERSITY

SEMICONDUCTOR MATERIALS:
FROM SILICON INTEGRATED CIRCUITS IN 1970
TO FLEXIBLE ELECTRONICS IN 2018

Semiconductors are an inexhaustible source of fascinating materials research and powerful applications. The speaker will trace research from the beginning of integrated circuits in 1970 to current work on large-area electronic skin.
