## TRANSFERRING COURSES THAT SATISFY CDS REQUIREMENTS

**Transfer courses do NOT satisfy BU Hubs.** If you have had courses from your previous institution(s) approved to satisfy CDS requirements, the Hubs associated with that class will still need to be satisfied.

*Because of that, how many Hubs you must complete will vary between student to student!*

### EXAMPLE

S. Squarepants is transferring to BU and CDS from Bikini Bottom University, where they were a data science major. They have CAS MA214, CDS DS110, DS210, DS310, and DS340 completed.

Since transfer courses do NOT carry Hubs, they will need to make sure they complete the TWC and CRI Hubs outside the CDS program requirements. ETR is satisfied in DS380.
