**IMPORTANT NOTES**

- Reading the relevant material in the textbook is essential for gaining a thorough understanding of the topics covered in the course.
- Not all of the material in each chapter will be covered during lecture/discussion, but the material should be read in any case.
- Your programs must be done in C++. One point will be deducted from the grade for each week a programming assignment is late after a one-week grace period.
- Be sure to get a copy of "Metropolitan College, Fall 2019 Course Schedule". It contains lots of useful data such as radio stations announcing class cancellations, important dates, etc.; or go to <http://www.bu.edu/met/>

**ACADEMIC HONESTY**

The course is governed by the Academic Conduct Committee policies regarding plagiarism (any attempt to represent the work of another person as one's own). This includes copying (even with modifications) of a program or a segment of code. You can discuss general ideas with other people, but the work you submit must be your own. Collaboration is not permitted.

**ELECTRONIC MAIL**

To be sure you *can* communicate with the instructor electronically and to add your name to the class distribution list, please send a test message with the subject line *CS231 TEST* to the instructor's email address.
