Pediatric Preceptorship A Clinical Continuing Education Program

OVERVIEW

This program is designed specifically for dentists interested in furthering their knowledge of pediatric dentistry. The objective of the program is for participants to become familiar with pediatric clinical skills and didactic education.

PHILOSOPHY

The overall philosophy of the Pediatric Preceptorship is to provide academic enrichment, specific to pediatric dentistry, to participants. This will be achieved through participation in post-doctoral pediatric didactic courses. The knowledge learned during the Preceptorship will provide the information and skills needed for the participants to further their education and continue their lifelong journey of learning.

PROGRAM DESIGN/OBJECTIVES

The program is comprised of clinical didactic and hands-on seminars. The didactic lectures and hands-on seminars follow the schedule of the post-doctoral Pediatric residents.

CRITERIA FOR SELECTION

- Educational background and previous training in dentistry, demonstrated by a degree in dental medicine from a domestic or foreign institution.
- Commitment to improve pediatric didactic and clinical knowledge.

SCHEDULE

- This program is full-time, Monday through Friday 8am-5pm, for a one (1) month period.
- The program will begin every July with the start of the new academic calendar.
- The program will run one (1) time each calendar year.
- Participants will be allowed 2 sick days.

PEDIATRIC DIDACTIC LECTURES

Participants will follow the didactic schedule of the post-doctoral Pediatric residents for four (4) weeks

FACILITIES

The Henry M. Goldman School of Dental Medicine is located on the Boston University Medical Campus in Boston's South End.
