

Start your degree in awesome

Great WiFi and entertainment are just a few steps away

How to connect to the WiFi

- 1) Locate your network from the list of those available: **BU Wi-Fi Resident**
- 2) Enter your network's password: **buwifiresident**
- 3) Authenticate using your school credentials (university email address and password) to access your dormitory WiFi and streaming TV service.

After you have signed in once with your device, you will automatically connect to the network in following sessions.

Guest access to WiFi

Your guests may access WiFi by connecting to **BU Wi-Fi Guest**. Password: **buwifiguest**

xfinity

Turn any screen into a TV with the Xfinity Stream app

How to get connected

- 1) Download the **Xfinity Stream app** and tap "Sign in here" or visit **xfinityoncampus.com**
- 2) Enter your school in the search field
- 3) Sign in using your school credentials
- 4) Once signed in, start watching

More to watch, in more places

- Stream over 100+ channels
- Access thousands of shows and movies
- Record your favorites with 20 hours of DVR storage

Having issues accessing your streaming TV content? Please contact your university IT team or visit **xfinityoncampus.com/support**.

How to set up devices like gaming systems, streaming devices, or wireless printers

- 1) Sign in to the Campus Device Manager Portal (**campusdevicemanager.xfinity.com**) using your school credentials (university email address and password). If your school credentials do not allow access, please contact your university's IT team for assistance.
- 2) Connect your browser-less device by following the instructions on the Campus Device Manager Portal. **Note: Each device must be connected individually.**

Support

Need help? Call the Boston University Help Desk.

You'll need to be in your campus housing with the device that's experiencing connectivity issues.
