10:30 - 10:45	Coffee Break	3:45 - 4:45	Roundtable: The Value of Primary Sources for Theoretical Enquiry Michael Birnhack , TAU, Tel Aviv Martin Kretschmer , cREATE, University of Glasgow Jake Sadow , Statewide Digitization Program Supervisor at the Boston Public Library & National Archives Access to primary sources (such as historical cases, contracts, treaties) has dramatically increased in the digital age. This may be the result of mass digitization efforts or critical, editorial projects (such as Primary Sources on Copyright: 1450-1900). While materials from the past and other jurisdictions have become much more visible, are these digital resources a substitute for archival work? Do they enable a form of synthesis that was not possible previously? This roundtable will explore these questions, drawing on the expertise of the ISHTIP 2024 community.
10:45 - 12:45	SESSION 6 Chair: Betsy Rosenblatt , Case Western Reserve University Stacey Lantagne , Law, Western New England University School of Law <i>Just Like a Human Being: The Anthropomorphizing of Artificial Intelligence in Copyright Law Arguments</i> Commentator: Jeffrey Omari , Anthropology and Law, Gonzaga University Cathay Smith , University of Montana School of Law <i>Copyrighting Nature</i> Commentator: Xan Chacko , STS, Brown University Jiarong Zhang , Law, Trinity College Dublin <i>Collecting the Last Leaves Under Urbanisation?
