RESEARCH FUNDING

- 2021-2023 Principal Investigator, *Planning for an Evaluation of the Relationship between Massachusetts' Child Care Subsidy Payment Rate and Family Co-Payment Policies and Access to Care*, U.S. Department of Health and Human Services, Administration for Children and Families. \$150,000.
- Project goals are 1) to develop an evidence-based approach to inform the state's planned changes to subsidy co-payment and reimbursement policies and 2) to design an evaluation study of the effectiveness of the policy changes for families and providers.
- 2020-2022 Principal Investigator (Graduate Research Advisor), *Examining child care for intimate partner violence survivors and their children: An explanatory mixed methods study*, U.S. Department of Health and Human Services, Administration for Children and Families. Early Care and Education Research Scholar Grant for Graduate student, Juliann Nicholson, \$50,000.

2020-2021 Principal Investigator, *Examining how state policy generosity in subsidizing child care affects access to subsidies and the well-being of children in disadvantaged families*. Robert Wood Johnson Foundation, \$73,519.

Project goals are: (1) to develop a child care subsidy generosity index by combining child care subsidy policies that affect access to child care subsidies among low-income families and (2) to examine how the generosity of state child care subsidy rules, individually and collectively, is associated with take-up of subsidies, particularly focusing on subgroups of vulnerable families and children (e.g., racial minorities, immigrants, rural residents).

2019-2023 Principal Investigator, *Quality of Subsidized Child Care Providers and Children's Care Stability: Implications for Early Educational Outcomes*. U.S. Department of Health and Human Services, Administration for Children and Families. \$1,589,505.

Project aims: 1) to examine the impact of licensing regulation changes under the 2014 Child Care and Development Block Grant (CCDBG) on the availability and quality of subsidized and non-subsidized care providers in MA; 2) to collect primary data on multiple dimensions of quality for subsidized child care providers and understand the relationship between quality of care and stability in subsidized care arrangement; and 3) to conduct a pilot study by linking child care provider quality and children's stability in subsidized care to their early educational outcomes. I am responsible for the overall project management, research design of the study, leading the data analysis and dissemination of the study results.

2019 Co-Principal Investigator, *Building Community and Health Equity through EITC and Financial Services: Pilot Study*. Boston University Initiatives on City Early State Urban Research Award. (PI: Lucy Marcil). \$10,000.

Explores the need for and feasibility of offering financial services through a school setting, including exploring families' perceptions of and barriers to accessing financial services; and explores the association between receipt of financial services and income, financial stability, and family health. I am responsible for co-designing and co-conducting the study implementation and will lead the data analysis.

2018-2022 Co-Principal Investigator and Principal Investigator on Boston University Subcontract. *Evaluation of Massachusetts' Change in Child Care Subsidy Authorization*. U.S. Department of Health and Human Services, Administration for Children and Families. Child Care and Development Block Grant (CCDBG) Implementation Research and Evaluation Grant (PI: Pam Joshi, Brandeis University, \$1,005,499). BU Subcontract \$199,949.

Mixed methods evaluation of the implementation process and impact of Massachusetts' change in the child care subsidy authorization policy, required under the 2014 Child Care and Development Block Grant, on the stability of the child care subsidy receipt and care arrangements among families and the stability of the enrollment of subsidized children

among child care providers. I am leading the impact study, designing and conducting the administrative data analysis.

2017-2018 Co-Principal Investigator and Principal Investigator on Boston University Subcontract. *Child Care and Development Block Grant (CCDBG) Implementation Research and Evaluation Planning Grant Partnership*. U.S. Department of Health and Human Services, Administration for Children and Families via Massachusetts Department of Early Education and Care (PI: Pam Joshi, Brandeis University, \$50,000). BU Subcontract \$9,676.

Built a partnership with the state child care subsidy lead agency and planned evaluation of the CCDBG policy changes in Massachusetts. I co-led the assessment of current program rules and co-designed the evaluation of the policy change.

2015-2017 Principal Investigator. *Designing Data Driven Directions for School Success of Students Involved in Child Welfare Proceedings*. U.S. Department of Health and Human Services, Administration for Children and Families via the Supreme Judicial Court/Massachusetts Court Improvement Program. \$75,000.

Project aims: 1) to develop a research design to analyze administrative data (e.g., from child welfare, schools, juvenile justice), and 2) to identify barriers and facilitators to educational success among children in state custody and make action-oriented recommendations to the Massachusetts Supreme Judicial Court. I was responsible for the overall project management and led the data analysis and formulation of the recommendations.

2015-2016 Co-Investigator. *Using Data to Inform Policy and Programmatic Responses to Unaccompanied Adult Homelessness*. Boston University Initiative on Cities (PI: Thomas Byrne, Boston University). \$7,800.

Examined patterns of shelter use among unaccompanied homeless adults utilizing data from the emergency shelter system in the City of Boston to inform efforts to address homelessness within Boston and other urban cities in the U.S. I consulted on statistical modeling using administrative data and the writing of recommendations.

2014-2015 Principal Investigator. *Homeless Youth Point-In-Time Count and Survey in Houston/Harris County, TX*. Greater Houston Community Foundation. Contract with the University of Houston Graduate College of Social Work \$130,850.

Conducted a Point-in-Time homeless youth count and a survey of health behaviors and social and health service utilization among homeless youth in Houston/Harris County. I developed the methodology for the youth count, designed the study, and obtained funding as PI. I led the early part of the data collection.

2013-2017 Co-Principal Investigator and Principal Investigator on Boston University Subcontract. *Evaluation of Child Care Voucher Eligibility Reassessment Policy Change in*

Massachusetts. U.S. Department of Health and Human Services, Administration for Children and Families, Child Care Policy Research Partnership Grant (PI: Pam Joshi, Brandeis University, \$1,000,000). BU Subcontract \$195,168.

Evaluated the implementation process (qualitative study) and the impact (quantitative study) of the changes in the child care voucher eligibility reassessment policy on the stability of the child care subsidy receipt and care arrangements among families and the stability of the enrollment of subsidized children among child care providers. I led the impact study, designed analytic methods and conducted the analysis using administrative data.

2012-2014 Co-Principal Investigator and Principal Investigator on Boston University Subcontract. *Child Care Arrangements and Cognitive Outcomes among Children from Latino Immigrant Families*. The Lois and Samuel Silberman Fund Faculty Grant Program. (PI: Marci Ybarra, University of Chicago, \$40,000). BU Subcontract \$18,650.

Study aims: (1) explored, by their documentation status, individual and neighborhood factors that shape child care choices among Latino immigrant families, and (2) examined the impact that the different types of child care used had on later math and reading outcomes of Latino immigrants' children. I co-developed the design, analytic models and literature review. I led the empirical analysis and collaborated on writing manuscripts.

2012 Principal Investigator, *Child Support and Equality*. University of Wisconsin-Madison Institute for Research on Poverty. \$18,640.

Examined the relationship between child support transfer and family income inequality between resident- and nonresident-parent families. I designed the study, conducted the data analysis, and led the manuscript writing.

2009-2011 Principal Investigator, *Child Care Subsidy, Quality of Child Care, and Employment Outcomes among Low-Income Families in South Carolina*, Research Opportunity Program grant, University of South Carolina, \$20,000.

This study 1) explored the extent to which welfare recipients utilized child care subsidies and the types of care that families obtained, and 2) examined how and to what extent child care quality had an impact on the relationship between subsidy use and parents' economic behaviors. I designed the study, conducted the data analysis using administrative data from South Carolina's integrated administrative data systems, and wrote a manuscript.

2009-2010 Researcher, *South Carolina Child Care State Research Capacity Building Project*. U.S. Department of Health and Human Services, Administration for Children and Families, Child Care Research Partnership Grant (PI: Leigh Bolick, South Carolina Department of Social Services, \$1,000,000). \$190,000.

Developed an integrated administrative data system across state agencies to build

capacity for child care research for the states. I consulted on the structure of the data system and analyzed data for the data crosswalk and quality check.

2007-2008 Principal Investigator. *The Role of Child Care Subsidies in the Economic Well-being of Low-Income Families*. U.S. Department of Health and Human Services, Administration for Children and Families, Child Care Research Scholar Grant. \$40,000.

Examined the patterns of child care subsidy use and the relationship between subsidy use and parents' earnings. I designed the study, conducted the data analysis utilizing administrative data in Wisconsin, and wrote my dissertation and manuscripts.
