

FLM: Oral Presentation

In-Class Activity *Online Implementation*

You will be put in a break-out room with a couple other students. Once in your group, take turns to show your group a brief (1-2 min) video clip of the TED Talk that you already viewed for this module. You can either play the video clip on your computer and share your screen, or you can send a link to the TED Talk in the Zoom chat and let your peers stream a part of the video on their own.

Next, together with your peers, discuss and evaluate the TED Talk speaker's enunciation, pacing, intonation, gestures, and facial expressions. Copy and paste the template below into a shared Google doc to help structure your comments on the speaker. Finally, be prepared to show and explain your responses with the rest of the class by sharing your screen or your Google doc.

TED Talk title:

Speaker:

URL:

What does the speaker do **effectively**, and why?
