

FLM: Quotation Integration and In-text Citation

In-Class Activity: Option 3

Online Implementation

Select a paragraph from the draft of your current paper assignment and work on improving the selection, integration, and citation of quoted material that you include. Your instructor may ask you to work individually or place you in a break-out room. If working with a partner or group, first work on your revisions and then share your revised paragraph with your group members to get feedback on your work.
