

FLM: Writing Arguments pt 1

In-Class Activity *Online Implementation*

Now that we have closely analyzed Gleiser's position in the article, we know that he doesn't present specific evidence to support his claim.

In your break-out rooms, come up with evidence for Gleiser's position. Write them down as a list in a shared Google doc. Feel free to use your own knowledge and/or to do a quick online search for other types of evidence (just make sure to keep a list of all of your sources!).
